AESTHETIC
WORKSTATION FOR
FACE, NECK
& BODY

EXPERIENCE THE POWER

Non-invasive, pain-free aesthetic treatments powered by combining the revolutionary VariPulse™ technology with (MP)²

THE ULTIMATE MEDICAL AESTHETIC EXPERIENCE

Superior efficacy in a pain-free treatment delivering the best patient experience

A multi-application product experience that reaches validated clinical end points fastest in the industry

A business experience that grows your practice and delivers superior ROI in less time

NON-INVASIVE BODY CONTOURING

CELLULITE REDUCTION

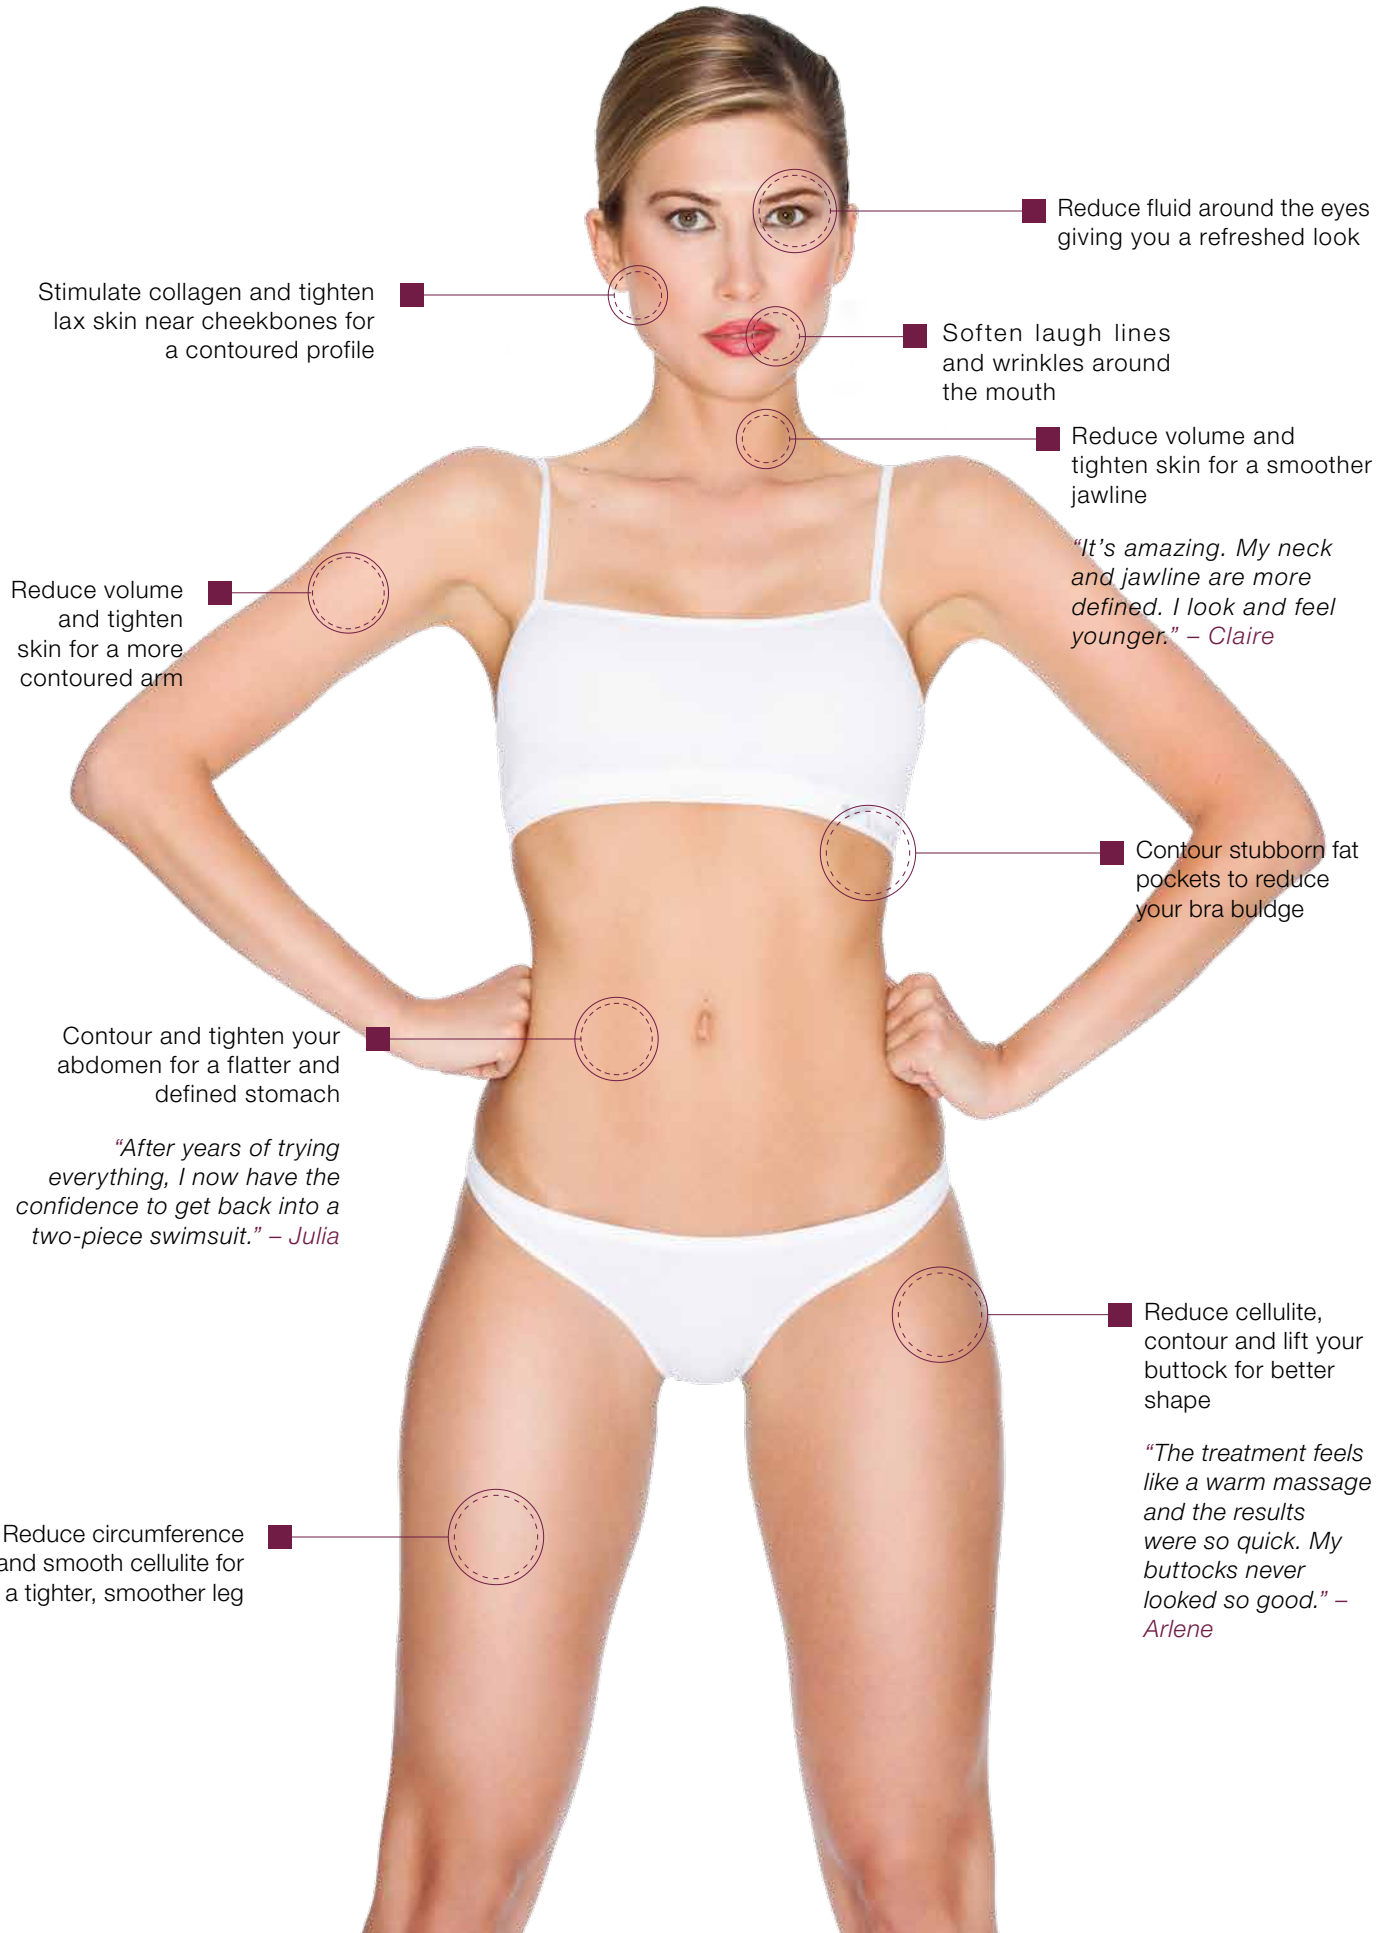

WRINKLE REDUCTION

CIRCUMFERENTIAL REDUCTION

SKIN TIGHTENING

FOR THE FACE, NECK & BODY

THE VENUS LEGACY™ EXPERIENCE

Stimulate collagen and tighten lax skin near cheekbones for a contoured profile

Reduce fluid around the eyes giving you a refreshed look

Soften laugh lines and wrinkles around the mouth

Reduce volume and tighten skin for a smoother jawline

"It's amazing. My neck and jawline are more defined. I look and feel younger." – Claire

Reduce volume and tighten skin for a more contoured arm

Contour stubborn fat pockets to reduce your bra bulge

Contour and tighten your abdomen for a flatter and defined stomach

"After years of trying everything, I now have the confidence to get back into a two-piece swimsuit." – Julia

Reduce cellulite, contour and lift your buttock for better shape

"The treatment feels like a warm massage and the results were so quick. My buttocks never looked so good." – Arlene

Reduce circumference and smooth cellulite for a tighter, smoother leg

TRANSFORMING THE TREATMENT EXPERIENCE

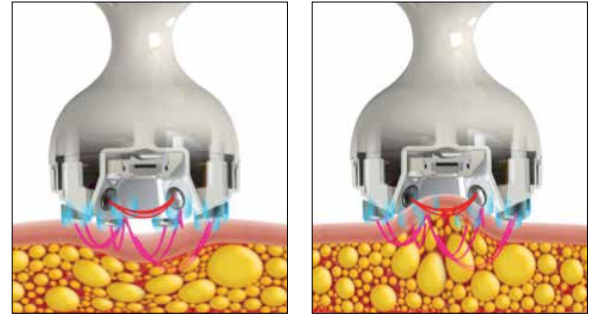

Venus Concept is once again energizing the medical aesthetic industry with a revolutionary technology for non-surgical body contouring and skin tightening for the face, neck and body.

The Venus Legacy is the first all-in-one medical aesthetic workstation that combines the proven multi-polar + magnetic pulse (MP)² technology with the new VariPulse™ feature that will enhance your client satisfaction and deliver an impressive return on investment.

- Immediate and long-term results
- Rapid homogenous heating
- 100% safe for all skin types
- Increased treatment options with multiple applicators
- Pleasant pain-free treatment

VENUS 4D™ TECHNOLOGY – A NEW STANDARD

The Venus Legacy™ is the first and only FDA cleared device to utilize 4D® technology, combining Multi-Polar Radio Frequency (RF), Pulsed Electro Magnetic Fields (PEMF) and VariPulse™ technologies with RealTime Thermal Feedback. This allows the Venus Legacy™ to deliver safe, pain free treatments and superior outcomes.

A demonstration of Venus 4D™ Technology

Multi-Polar RF

- Contraction of collagen
- Synthesis of collagen
- Lypolysis

Pulsed Electro Magnetic Fields

- Synthesis of collagen
- Fibroblast proliferation
- Neo-vascularity

Vari-Pulse™

- Adjustable pulsed suction for deep energy penetration
- Lymphatic drainage
- Stimulate circulation

Real Time Thermal Feedback

- Visual feedback graph
- Integrated handsfree thermometer
- Constant tissue contact

FACE & NECK APPLICATORS

Lift™ Applicator

The Lift™ applicator utilizes the proven (MP)² technology. This combined with the new VariPulse™ technology increases circulation and reduces fluid under the eyes, as well as contours smaller areas such as the neck, arms and bra bulge. The DiamondPolar™ applicator has a unique electrode placement that allows for treatment in hard to reach areas, such as around the eyes and along the jowls, smoothing wrinkles and fine lines.

DiamondPolar™ Applicator

BODY APPLICATORS

Sculpt™ Applicator

The Sculpt™ applicator combines (MP)² technology with VariPulse™ suction creating a deep matrix of heat, targeting multiple tissue depths for body contouring and the temporary reduction of cellulite. The VariPulse™ technology increases circulation, stimulates lymphatic drainage and induces lypolysis in the treatment areas. The Sculpt™ and OctiPolar™ applicators have a large spot size that allows for faster treatments, even heat distribution and increased therapeutic temperatures for superior clinical results.

OctiPolar™ Applicator

Applicators with technicians in mind

EASE OF USE AND OPERATOR COMFORT

The Venus Legacy multi-applicator workstation is ergonomically designed with the clinic owner and technician in mind.

Recommended treatments are pre-programmed into the system and can be easily adjusted at any time during the procedure.

All 4 applicators are designed to glide over the treatment area, delivering fast, more comfortable treatment sessions with reduced operator fatigue. This results in increased daily patient volume and potentially higher revenues for the clinic.

Pre-programmed settings make treatments easy

Practice Average by Specialties*

Specialty	Yearly Revenue	Monthly Revenue
Plastic Surgeon & Dermatologist**	\$136,722	\$11,394
Cosmetic Surgeon	\$107,010	\$8,918
Medspa	\$118,308	\$9,859
GP/FP	\$105,732	\$8,811
OB/GYN	\$105,972	\$8,831
Other	\$73,572	\$6,131

*Based on a 2012 North American national audit of Venus Concept customers. Calculations are based on an average treatment time of 30 minutes with an average fee of \$250.00 per treatment. ** Based on an average treatment fee of \$300.00 per treatment.

Technical Specifications	
Input Voltage	240/120/100V ~, 670VA, 60/50Hz.
Output RF Frequency	1MHz
Fuse	T10A, 250V
Max RF Output Power	Up to 150W
(MP) ² Applicators	DiamondPolar – Treatment Applicator with integrated thermometer
	OctiPolar – Treatment Applicator with integrated thermometer
	Lift – Treatment Applicator with 4 suction levels (optional) and integrated thermometer
	Sculpt – Treatment Applicator with 4 suction levels (optional) and integrated thermometer
Output voltage	Up to 130V @ Rated Load
Magnetic Pulse Frequency	15Hz
Magnetic Field	15 Gauss
Dimensions	40x40x100 cm / 15.75in x 15.75in x 40in (DxWxH)
Weight	40 Kg / 88 Lbs

Venus Legacy is cleared by the FDA for the treatment of Facial Wrinkles and Rhytides and licensed by Health Canada for non-invasive treatment of temporary cellulite reduction and temporary skin tightening (Venus Freeze).
